Mohammad Matin Momeni

Developer

An enthusiastic student; Eager to learn and develop my skills; I probably made a crawler for every site I encountered. Trying to automate everything and also collect useful (or useless) data.

EDUCATION

Bachelor of Computer Engineering
Shahid Beheshti University

09/2021 - Present   *GPA: 3.77*

Courses

- Artificial Intelligence and Expert Systems
- Data Structures
- Linear Algebra
- Deep Reinforcement Learning
- Database
- Computer Networks
- Introduction to Machine Learning
- Fundamentals Of Robotics

High School Diploma, Mathematics
Shahid Beheshti (Sampad) High School

09/2018 - 06/2021

WORK EXPERIENCE

Teaching Assistant
Shahid Beheshti University

09/2022 - Present

Courses

- Artificial Intelligence and Expert Systems
- Signals and Systems
- Advanced Programming
- Fundamentals of Compiler Design

SKILLS

Python | Web scraping | Selenium | SQL

Linux | Git | OOP | PyQt | Team work

English communication | Problem-solving

PERSONAL PROJECTS

Instagram downloader ⧉
- A complete app for downloading a profile's data using different tools and managing them using SQLite

Hand of the King game ⧉
- Implementation of a board game based using pygame library

Social chat app ⧉
- A simple multi-thread server-client-based app for chatting using sockets

INTERESTS

Python | Web scraping | Software Development

Data Science | ML | Robotics
